

10 Uniform, 5C - Multi-Collet Fixture

Beere Multi-Collet Fixtures

Now you can gang-machine small parts with Multi-Collet Fixture's 10 uniform 5C collet cells. Fast loading and unloading, uniform 2" center distances speed up machining center operations... cut tool changing time by 90%. Get a grip on productivity with these handy fixtures.

No Radial Movement

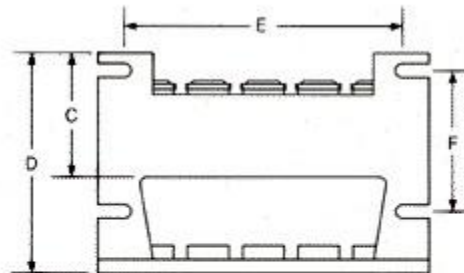

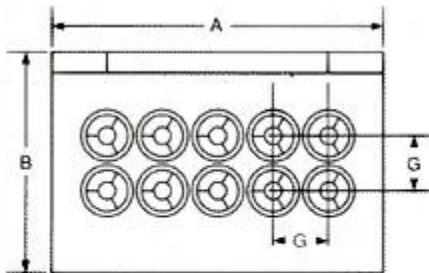

Heavy milling operations can't cause radial movement of individual collets with Multi-Collet Fixture's patented alignment feature.

Horizontal or Vertical Mounting

Two ways to mount your Multi-Collet Fixture give even more versatility... standard vertical workpiece orientation, or simply turn 90° to orient workpieces horizontally.

Loads from Front or Rear

Loading is easy from front or rear of fixture... and from top or bottom on vertical mounts. You can use stops at front or rear if you wish, for even faster, more accurate positioning. Captive collet nut built into each station eliminates collet wrenches.

Multi-Collet Fixture Specifications

	A	B	C	D	E	F	G
Dimensions	11.750	8.000	4.375	7.875	10.000	5.000	2.000
Weight: 82 lbs. approx.	Collet Style: 5C		Maximum Gripping Pressure: 2500
